Tolerances: plus/minus 2mm (dims), plus/minus 5mm (lengths)

Material Grade: 1050 Mill Finish Aluminium

Products manufactured to: ISO 9001

General Notes:

All substrate is manufactured in line with, and conforms to all relevant industry standards. As finished articles, fabrications are used in conjunction with a wide variety of roofing materials and substrates. It is therefore not possible to offer guarantees and/or warranties regarding a finished fabrications performance due to such a diverse application. However, historic use suggests that provided they are installed properly, fabrications will protect the building without costly maintenance regimes for many years.
