

Description	
Applications	<h2>EXPANDED METAL MESH</h2> <p>Decorative expanded metal mesh can be utilised for architectural projects distinguished and designed according to the designer's preference. Offering a unique and versatile alternative to perforated metal, while providing significant cost savings opportunities, expanded mesh is a raw material that allows light and air to flow freely through it and provides a rigid screen product with a variety of open area configurations. With meshes available in a wide array of colours, materials and designs, they can be used to stunning effect.</p>
